DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-16 and 24-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite because it is unclear what is meant by "fluid menisciincluding a chemistry. It is unclear whether the front and back fluid menisci is formed using a chemistry that is compatible with the brush scrubbing chemistry. The examiner strongly recommends amending claim 1 to include the language "menisci being formed using a chemistry". Claim 2 is indefinite because it is unclear how the chemistry of the of the back menisci prevents contamination of the front surface of the semiconductor substrate. Claim 6 should be amended to include the language "the chemistry of the front fluid meniscus includes a front cleaning chemistry and the chemistry of the back fluid meniscus includes a back cleaning chemistry. Claims 10 and 24 are indefinite because the preamble of the claims is unclear. It is unclear what the semiconductor is being prepared for. The examiner suggests changing the preamble to a method of cleaning. Claims 10 and 24 are further indefinite for similar reasons to that of claim 1, with respect to the language "the front fluid meniscus including a front cleaning chemistry". The examiner once again suggests the language "meniscus being formed using". Similarly, claim 12 should be amended to include the language "meniscus being formed using a back cleaning chemistry. Claim 13 should be amended to include the

Art Unit: 1746

language "back fluid meniscus. Claim 14 is indefinite because "the back chemistry" lacks positive antecedent basis. Line 4 of claim 4 should further recite "the front surface and the back surface of the semiconductor substrate. Claim 26 is indefinite for similar reasons to that of claim 1. Specifically, the term "including" should be replaced by "being formed using".

- 3. In several interviews with Ms. Yadegar on 9/8/2005 and 9/9/2205, the examiner proposed the above changes in order to place the application in condition for allowance. However, no agreement could be reached. Ms. Yadegar informed the examiner that and IDS will be submitted for further review.
- 4. The rejection of the claims, under 112, first paragraph is withdrawn in view of corrections made by applicant.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Application/Control Number: 10/816,432 Page 4

Art Unit: 1746

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sharidan Carrillo whose telephone number is 571-272-1297. The examiner can normally be reached on M-W 6:30-4:00pm, alternating Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on 571-272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
